Tom Odell, singer songwriter said "When I was 13 years old I started writing songs, and over the following years I became more and more obsessed with it. But the thing that always kept me awake at night was how to get them out there for people to hear them. This is why I think The Song Academy Young Songwriter competition is a great way to inspire and help through this process, and it's something I wish had been around when I was starting out."

Who are we? A Song Academy overview

Founded 9 years ago, Song Academy champions young people aged 8-18 and is nurturing the next generation of songwriters & creative leaders.

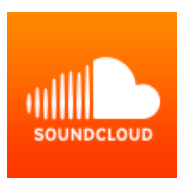

We believe we have a unique concept which focuses on the hearts and minds of young people, giving them the tools and platform to express themselves powerfully, have their songs heard and be part of a vibrant community of peers and leaders in the Music industry. We celebrate young people's individuality, unleash their creativity and inspire them with what's possible. Overall, we build young people's confidence, self-belief and drive to achieve their potential. Our focus is on the love of songwriting rather than the love of fame.

Song Academy runs after-school clubs, holiday workshops, school workshops, birthday parties and an annual international Young Songwriter competition. As a result of our programmes, we have seen a direct correlation in the increase and advancement of confidence, self-esteem, creativity, motivation, well-being and technical song-writing ability in our members.
